

CREWVITAL 360

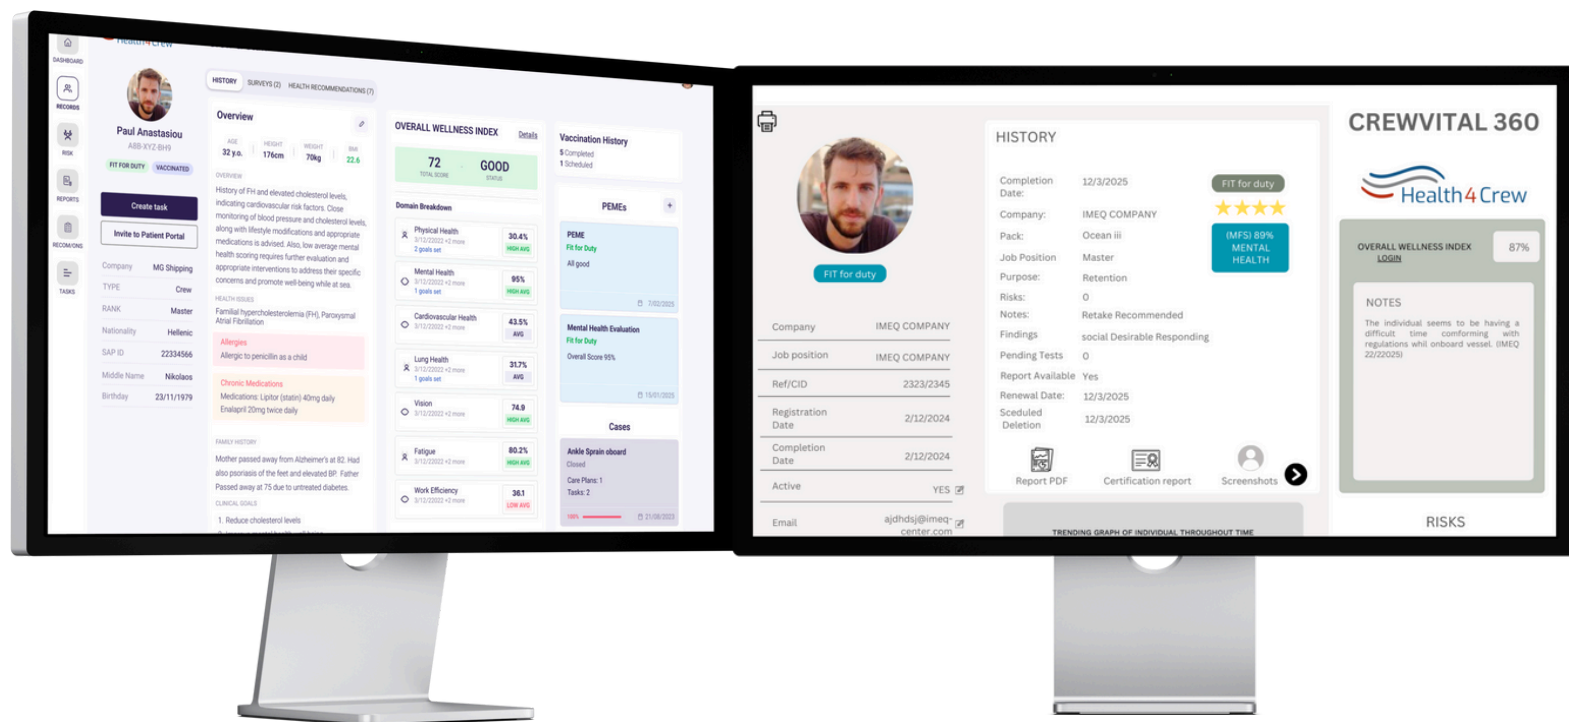

Combining Mental and Physical Health Insights with Real-Time Monitoring for Safer Seas and Healthier Crews.

I.M.E.Q.®

"Two Experts, One Unified Solution"

CrewVital 360 is a cutting-edge health management solution designed specifically for the maritime industry, integrating mental and physical health insights into a single, unified platform. This innovative product combines the expertise of IMEQ Center in psychometric assessments and mental health certifications with Health4Crew's specialized approach to seafarer healthcare, offering digitalized Pre-Employment Medical Examinations (PEMEs), 24/7 real-time medical case support, and fleet-wide health insights. With Health4Crew's advanced analytics and medical expertise, shipping companies gain a clearer picture of crew health trends, enabling data-driven decisions that enhance well-being, mitigate risks, and improve operational safety.

With CrewVital 360, shipping companies gain a holistic view of their crew's well-being, enabling proactive risk management and improved safety onboard. The platform provides a comprehensive Overall Wellness Index, merging mental and physical health metrics to present an actionable health score. It also includes predictive analytics to identify potential risks early, real-time monitoring for seamless case management, and a collaborative workflow that ensures swift and effective health interventions.

PROACTIVE - PREVENTATIVE - PERSONALIZED

HOLISTIC 360 HEALTH PROFILE

PROACTIVE HEALTH MANAGEMENT:

360 REAL-TIME CASE MANAGEMENT

THE 4 PILLARS

CREWVITAL 360

Psychometrics & Medical

- Every crew member undergoes psychometric assessments to evaluate mental fitness and resilience.
- Pre-Employment Medical Examinations (PEME) to ensure physical readiness for the demanding maritime environment.

Overall Wellness Index

- Combines physical health metrics from Health4Crew and mental health assessments from IMEQ Center.
- Provides a single comprehensive percentage representing an individual's health status (e.g., 85% Overall Wellness).
- Includes certification of mental fitness and "Fitness for Duty" status.

Holistic Risk Analysis

- Merges Health4Crew's physical health risks and IMEQ's mental health risks into a unified risk profile.
- Predictive analytics for proactive identification of potential onboard risks.

Real-Time Monitoring and Incident Management

- Continuous monitoring of physical and mental health.
- Immediate flagging of high-risk indicators for intervention.
- Integration with telemedicine (Health4Crew) and consulting services (IMEQ).
- iSupport for Crew

 Distinct Contracts: Each service (Health4Crew & IMEQ CENTER) follows separate contractual agreements based on specific regulations applicable to the provider.

TRAININGS

CV360 UNIFIED TRAINING

The CrewVital 360 Unified Training Module is an essential component of the CrewVital 360 product package, designed to equip Well-Being Ambassadors with the knowledge and skills required to support crew members' physical and mental well-being onboard. This structured training ensures that non-medical personnel can identify early warning signs of health issues, provide initial support, and escalate cases through the appropriate channels —IMEQ Center for mental health concerns and Health4Crew for physical health issues.

**Scenario-Based
Role-Playing**

**Interactive Q&A
Sessions**

Case Studies

BESPOKE TRAININGS & WELLNESS INITIATIVES

IMEQ Center and Health4Crew offer customized, data-driven training solutions tailored to the specific physical, mental, and psychosocial risks identified for each vessel. These bespoke training modules ensure that seafarers, officers, and fleet managers are equipped with the necessary knowledge and skills to proactively manage health risks, safety culture, and well-being onboard.

By leveraging real-time data analysis, both mental and physical health training programs can be customized based on fleet trends, medical case reviews, incident reporting, and risk factors associated with vessel operations. Some indicative trainings are shown here:
